

LAB INTERNATIONAL WINTER SCHOOL 2021 Circular Economy and Resource Efficiency

Do you want to experience international learning online?

LAB INTERNATIONAL WINTER SCHOOL 2021

Circular Economy and Resource Efficiency

will be organized first time online 15-19 February 2021.

We'll keep the good elements of being multidisciplinary and international even online.

Aimed for students interested in environmental issues with either a technological or a business background, who are particularly interested in how to combine new thinking and concepts with the urban sustainability.

The one-week intensive online study programme consists of online lectures, teamwork in interdisciplinary and international teams, project work supervised by teachers, and by work-life partners online.

NOMINATION & REGISTRATION

Nomination deadline **11 December 2020.**

EXPENSES NO FEE
